NOTICE REGARDING WELLNESS PROGRAM

The City of Clearwater's Wellness Program is a voluntary wellness program available to all employees. The program is administered according to federal rules permitting employer sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others. If you choose to participate in the wellness program you will be asked to complete a voluntary health risk assessment or "HRA" that asks a series of questions about your health related activities and behaviors and whether you have or had certain medical conditions (e.g., cancer, diabetes, or heart disease). You will also be asked to complete a biometric/wellness screening, which will include a blood test for blood sugar levels (glucose) and cholesterol, and non-invasive screenings for weight and blood pressure.

You are not required to complete the HRA or to participate in the blood test or other medical examinations. However, only employees who choose to participate in the wellness program will receive an incentive of \$50 towards MotivateMe incentives for completing both the online health assessment and biometric/wellness screening.

Additional incentives may be available for employees who participate in certain health related activities such as completing annual preventive visits, completing telephonic or online health coaching, participating in challenges and more! If you are unable to participate in any of the health related activities or achieve any of the health outcomes required to earn an incentive, you may be entitled to a reasonable accommodation or an alternative standard. You may request a reasonable accommodation or an alternative standard by contacting Human Resources.

The information from your HRA and the results from your biometric screening will be used to provide you with information to help you understand your current health and potential risks. You also are encouraged to share your results or concerns with your own doctor.
